CERAMIC LAMP HOLDER

- 2m long heat resistant silicone cable to prevent the issue of the wire insulation degrading due to the heat the holders are exposed to
- Solid copper contacts which offer a superior lifespan compared to cheaper tin contacts
- A packaged SKU of a combined holder and mounting bracket including screws to help upselling
- Packaging consistent with the ProRep range of incandescent spot lamps for enhanced shelf presentation
- Flash text on the packaging heavily promoting the use of thermostats and guards to end users
